Space Essentials

Space Essentials is a furniture collection conceived as a series of pieces designed under a unified aesthetic language and manufactured in Europe.

This proposal presents a curated selection of elements intended to create a coherent whole, tailored to the space and its specific requirements.

The compositions shown have been designed specifically for integration within the architecture of the property.

The collection can be viewed and customised at our studio.

Living Area

Moodboard

The proposal is based on a palette of natural and warm tones, where Savana wood, Terra and soft beige fabrics predominate.

The combination of wood, textiles and stone surfaces provides material balance and visual continuity.

The overall composition seeks to create a serene, luminous and timeless atmosphere.

Living Area

Living Area | TV Composition

TELAIO Collection · Space Essentials

Designed as a freestanding feature piece, this bespoke TV composition subtly defines the living and dining areas while preserving the openness of the space.

The combination of Rovere Savana, Ash Stone and matte Terra finishes creates a warm and contemporary aesthetic, while the illuminated TV panel transforms the composition into a functional architectural centerpiece.

The image shown is for reference only. Finishes and materials are customised according to the project.

Living Area | TV Composition

TELAIO Collection · Space Essentials

Conceived as a contemporary display cabinet, the dining side of the composition provides a dedicated space for glassware, tableware and selected decorative pieces.

Integrated lighting enhances depth and texture, turning everyday objects into part of the interior design narrative.

The image shown is for reference only. Finishes and materials are customised according to the project.

Living Area | Upholstery Selection

Complete Project Experience

A project is not limited to the selection of furniture.

The way a space is lived is built through multiple layers that provide comfort, functionality, and character.

The following proposals expand the project to offer a complete and coherent experience.

Living Lumina

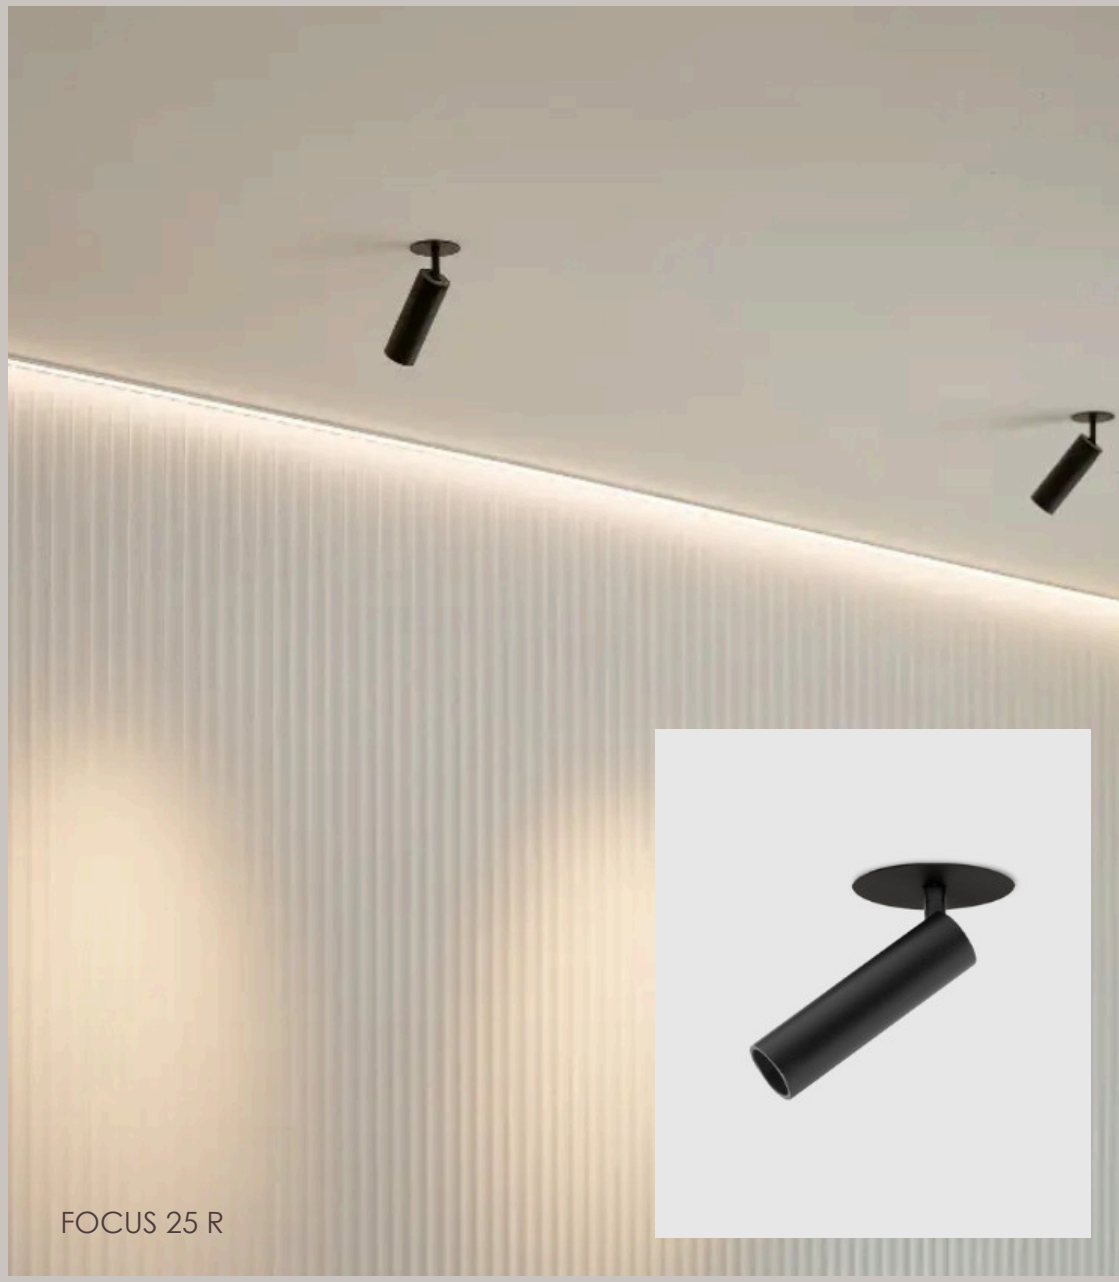

Architectural lighting

A selection of architectural lighting fixtures for the residence, including recessed ceiling spotlights, accent projectors for artwork, and lighting for common areas such as corridors, entrance halls and even the garage.

Home Textures

Roller Blinds & Curtains

Textiles provide warmth and sensory richness through light, texture, and movement.

For this project, wave-fold curtains crafted from a natural linen blend have been selected, creating a fresh atmosphere with a distinctive Mediterranean character.

To complement the soft furnishings, motorized blackout roller blinds have been specified, providing privacy while creating optimal conditions for rest and relaxation.

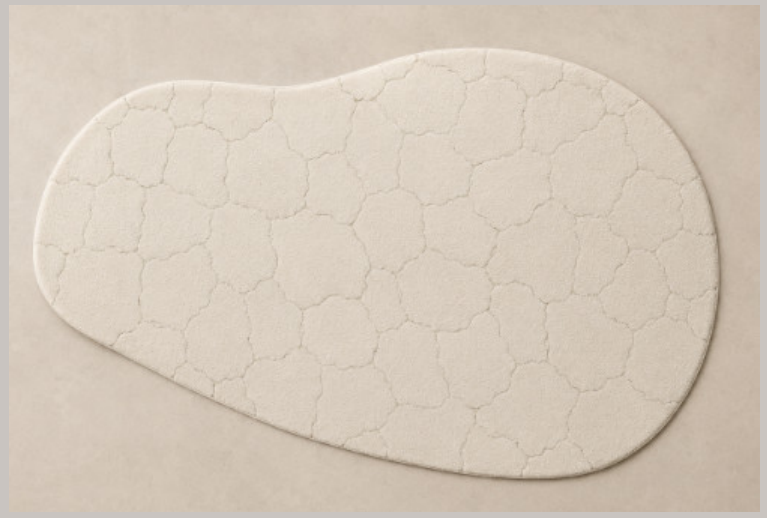

Images are for reference; textiles and finishes are selected and adapted according to the project.

Home Textures

Indoor Rugs

The rug selection has been curated with a focus on natural materials such as virgin wool and linen, as well as the craftsmanship behind each piece.

Organic forms and textures inspired by nature, fresh yet welcoming colour palettes, and distinctive designs come together to bring warmth, character and visual interest to the space.

A space is not arranged — it is constructed.

Every decision responds to an intention:
to organize, to balance and to give meaning
to the whole.

This proposal is the starting point of a project
designed to be lived.
